

Data for testing

We offer you below some data to perform the tests.

We suggest 2 ways to proceed:

1. Create a new account
2. Connect to an existing account.

It is possible to use any data. The data below are given as an indication.

1. Individual data

1. Create a new account

→ When we are on the green'it homepage (personal side), to create an account click on "Take part in action"

Type	Email	First name	Last name	Password	Age	City	Country
Non-Existing account	challenge@atos.com	Sarah	House	\$ilovegreenit\$	22	Lyon	France

2. Connect to an existing account

→ When we are on the green'it homepage (personal side), click on "Log in"

Type	Email	First name	Last name	Password	Age	City	Country
Existing account	test@atos.com	Marc	Flower	Atositchallenge2021!	39	Paris	France

Point of attention

These accounts are linked to fake email addresses. For the forgotten password tests, we suggest you use a real email address, to which you have access, as the system will send an email procedure to that address.

2. Organization data

1. Create a new account

→ When we are on the green'it homepage (organization side), to create an account click on "Sign up in seconds"

Type	Email	Organization's name	Type	SIRET	First name	Last name	Password
Non-Existing account	charlotte@green.com	Green	Association	130 023 385 00011	Charlotte	Smith	Ecologyforever!1998

2. Connect to an existing account

→ When we are on the green'it homepage (organization side), click on "Log In"

Type	Email	Organization's name	Type	SIRET	First name	Last name	Password
Existing account	ben@green.com	Earth	Company	4080247190 0572	Ben	Jones	Carbonfootprint1234

Point of attention

These accounts are linked to fake email addresses. For the forgotten password tests, we suggest you use a real email address, to which you have access, as the system will send an email procedure to that address.
